**Subject:** WAR on Crossett visit

Hi Everyone,

I have put together a WAR for our Crossett visit (below). Please let me know if you have any edits or would not like your name included. I would like to get this to Phil by the end of the day, so if you could let me know by then, that would be great.

Thanks!

- Karen

**GEORGIA PACIFIC CROSSETT PAPER MILL SITE VISIT:** On November 3, 2016, representatives from the Environmental Protection Agency (EPA) visited the Georgia Pacific Paper Mill in Crossett, Arkansas. During the visit, representatives from EPA, the Arkansas Department of Environmental Quality, and Georgia Pacific toured the facility, specifically observing the effluent discharge and the path that the discharge follows to the Ouachita River. They also observed the treatment processes that this effluent passes through. This visit will help inform both regulatory agencies on their NPDES permits and water quality standards actions related to the facility. **Karen Kesler (5-3185), Monica Burrell (5-7530), Renea Ryland (5-2130); Stacey Dwyer (5-6729); David Garcia (5-7593)**
